HOW TO TEST CANDIDATE SEARCH & AI WORKBENCH:

1. Open http://localhost:5173/ats/candidates in your web browser.

2. Search by skill keyword: Type 'AWS', 'Java', 'Snowflake', or 'React' in the search bar.

3. Filter by Visa Status: Select 'OPT', 'CPT', or 'H1-B' to isolate international students.

4. Click on any candidate name to view their full profile, resume summary, and rate card.

5. Open Resume Workbench (/ats/resumes) to drag-and-drop resumes and test AI parsing.

FINANCIAL MARGIN CALCULATION & RTR COMPLIANCE ENGINE

1. Right-to-Represent (RTR) Lawful Consent:

Before submitting any candidate to a US client, recruiters must lock agreed pay rate.

Example: Rajesh Kulkarni locked at $85.00/hr C2C with exclusive e-signature consent.

2. Automated Gross Margin & Markup Formula:

```
Gross Margin ($/hr) = Bill Rate - Pay Rate
Margin Percentage (%) = ((Bill Rate - Pay Rate) / Bill Rate) * 100
```

3. Sample Placement Profitability Calculation:

- Requisition: Senior AWS DevOps Lead at TCS America (REQ-IND-101)
- Client Bill Rate: $110.00 / hour | Candidate Pay Rate: $85.00 / hour
- Hourly Spread (Gross Margin): $25.00 / hour
- Monthly Gross Profit (160 billable hours): $4,000.00 USD / month
- Recruiter Commission: $1,500.00 | Account Manager Commission: $2,000.00

4. 16-Stage ATS Funnel Stages:

Sourced → Screening → Shortlisted → RTR Requested → RTR Received →

Internal Review → Client Submitted → Client Shortlisted → Interview Scheduled →

Technical Round 2 → Final Client Round → Offer Made → Offer Accepted → Placed!
